Department of Ecology
P.O. Box 47600
Olympia, Washington 98504-7600

Dear Messrs. Day and Stanley:

DRAFT A, 200-UP-1 REMEDIAL INVESTIGATION/FEASIBILITY STUDY (RI/FS) GROUNDWATER
OPERABLE UNIT WORK PLAN

This letter transmits Draft A, 200-UP-1 RI/FS Groundwater Operable Unit Work Plan, for review and comment by the U.S. Environmental Protection Agency and the State of Washington Department of Ecology. Submittal of this work plan fulfills the Hanford Federal Facility Agreement and Consent Order Interim Milestone M-13-02.

The work plan was prepared as a primary document based on the results of DOE/RL-92-16, "200 West Groundwater Aggregate Area Management Study Report (AAMSR)," Revision 0, January 1993. The format of the work plan is designed to maximize the referencing of information presented in the AAMSR, thereby reducing the size of the work plan. As part of this streamlining process, the Sampling and Analysis Plan has been incorporated into Section 5. This work plan is also designed to implement DOE/RL-91-04, "Hanford Site Past-Practice Strategy," March 1992, through the use of a Limited Field Investigation and Interim Remedial Measure for the uranium, technetium, nitrate groundwater plumes.

Messrs. Hofer and Stanley
93-ERB-142

If you have any questions regarding this work plan, please contact
Mr. P. M. Pak at (509) 376-4798.

Sincerely,

Steven H. Wisness
Hanford Project Manager
